INTRODUCTION

Regulation 25 (2) of Regulation BOWEC has stipulate that site safety supervisor must be a person who is competent to perform the duties specified in sub-regulation (3) and (4), and have qualifications approved by the Chief Inspector and working experience of at least for two years as a construction site foreman. Chief Inspector is Director General of the Department of Occupational Safety and Health. With regard to the competency of a site safety supervisor, Department of Occupational Safety and Health (DOSH) had decided that site safety supervisor must be a person who has successfully completed a site safety supervisor course carried out by the instructor registered with DOSH, and passed the examination conducted by the National Institute of Occupational Safety and Health (NIOSH) or institution accredited by DOSH.

OBJECTIVE

We aimed to assist the government in developing the potential of our construction industry by providing competency training for Site Safety Supervisor (SSS). It also to fulfil the requirement as state in Regulation 1986 under BOWEC.

METHODOLOGY

- Lecture
- Demonstration (hands on sessions)
- Question and Answers
- Practical on site
- Participant centered

WHO SHOULD ATTEND

- All individuals or person themselves who's directly involved in relevant job to site
- supervisory.
- Site Foreman or Supervisor
- Safety Supervisor

About Speaker

Marvin has over 20 years' worth of knowledge and experience developing and conducting management systems development for a variety of industries, including electronics, plantation, food manufacturing, Oil and Gas, education and construction sectors. He is highly conscientious in follow through, planning and organization of new ideas/products and readily accepts new challenges. Marvin demonstrates exceptional communication skills with extensive public speaking / presentation experience. His well-developed capacity to build trusting relationships, enthuse, motivate and encourage collaboration from stakeholders, staff and management, has proven him to be an invaluable asset to multiple projects. Marvin is skilled in developing management systems from scratch, especially for SMEs (Small Medium Enterprises), leading them to learn and develop themselves in the ongoing development process.
